

Fireworks 2023

Bought & Reset with Didier

2023 08

PANNEW (for) **DREAMWEAVER** is on dossier local/Users/ep/Pictures/Website-Fireworks/PANNEW
Especially for uploading PDF files !

How to open an image (.png) from MAC : you must go through -exports SAS to Fireworks.

So first you must copy the image from ?
Then paste in -exports SAS to Fireworks
The in Fireworks open that file

See also for inverse ? = New procedure (see 2 videos, in Travail EP/Website/Didier tutorials 2023 05)

Dreamweaver New location: /Users/ep/~~Pictures~~ or Images/Website-Fireworks/PANNEW

Fireworks, open directly. Export to Dreamweaver.

PDF

ATTENTION : pour créer des PDF (et garder les links) passer par copier tout, puis, dans Acrobat Pro, Créer un pdf à partir de copier. (Par print pdf on perd les liens.)
Sauvegarder dans Website Fireworks (garder ce choix.)

OLD

2 Emplacements

1. Macintosh HD / Utilisateurs / ep / images / -WEBSITE export SAS / -exports SAS to Fireworks
2. *Via Fireworks only* : (Y:) / Pictures / -WEBSITE export SAS / -exports SAS to Fireworks

EXPORT (from Fireworks to Dreamweaver)

Open & change images via Fireworks (it does not work otherwise)

Save in Poste de Travail / (Y :) / Pictures / -WEBSITE export SAS / -exports SAS to Fireworks

If done you can close Fireworks. Image is recorded (no need to resave it)

Open Finder = Favoris / open - exports fireworks (not images)

Click and slide jpg into images / file (photos-extra p.e.) (delicate operation find file and keep pressed mouse)

Open Dreamweaver, it is there to be exported into internet site.

Remember to refresh (close and reopen) files for sort order

IMPORT from MAC // Travail EP into (Y :) / Pictures

MAC .png images are mostly in WEBSITE/Pannew Sources FireWorks

EP How to open a .png which is on Travail EP/Website/Pannew Sources/2023 MT23/
Chemin inverse?

In Documents / Travail EP / Website / Pannew Sources / etc.
Click and slide png into **Pictures / -WEBSITE import SAS / -imports SAS to Fireworks**
If done you can **open Fireworks**

Old (free)

- « Essayer » Autoriser uniquement la période d'essai (à droite)
- Click Fireworks Jaune
- Finir fermer Fworks et Crossover = A la fin du travail fermer Fireworks et fermer cross over.

old

Chemin pour retrouver >Fireworks

Finder/Macbook pro de Enrique/Macintosh HD/Utilisateurs/ep/Wine Files/drive_c/ProgramFiles/Macromedia/FireworksMX2004/ Fireworks.exe

New WPress Site

Composite images for web

- 1 - découper l'image et y faire toutes les modifications. ENSUITE les textes
- 2 - ouvrir NEW (blanc ou transparent selon) avec **la taille finale du projet (best in px) ET qualité 300 dpi** (dots, pixels per inch pouces)
- 2 - y coller l'image qu'on veut (elle sera en 300 dpi)

** l'image New Site **en rubrique** fait 2560 x 1551 px (elle aura le bas nibbled)

DREAMWEAVER

AFFICHAGE Enrique Grand écran

si les 3 parties se séparent / Fenêtre /. Présentation de l'espace de travail / Réinitialiser Enrique Grand écran.

Note : to send emails from TOSHIBA send via Firefox GMAIL (not OUTLOOK)

Ancres nommées

<https://helpx.adobe.com/fr/dreamweaver/using/linking.html>

? :

- 1 select text or image to be used as anchor (towards which to link) : give it an ID (below in properties)
 - 2 go to *déclencheur* (text or image) and select it : **in lien write #EP (or name of anchor)** chose from list (down arrow)
 - 3 or use arrow from anchor to déclencheur
- Does not work with Zone reactive
